

How do I know which of these systems to use: Colorado Immunization Information System (CIIS), CO.TRAIN, or the CIIS Resource Center (CRC)?

The CIIS program uses three web-based sites that offer services to new and existing CIIS users. Below is a description of the services that are available on each website:

CIIS Main Application is where users can access the Colorado database of patient immunization records.

- Health care providers can use CIIS at <https://ciis.state.co.us/ciis/Login.aspx> to check the immunization status of patients, review recommended immunizations and manage their vaccine inventory.
- Schools/ Childcare/ Head Start Programs can use CIIS at <https://ciis.state.co.us/school/Login.aspx> to check the immunization status of students, review recommended immunizations and print immunization records for improved record keeping.

Please Note: You must first complete the required online training course(s) and then submit a CIIS user account request form in order to gain access to CIIS. To request a CIIS account, click on the *CIIS General User Request Form* link from the [CIIS Main Application Login](#) screen to begin the process.

The screenshot shows the login interface for the Colorado Immunization Information System (CIIS). At the top, there is a dark blue header with the CIIS logo (a circular emblem with 'CIIS' in the center and 'COLORADO IMMUNIZATION INFORMATION SYSTEM' around the perimeter) and the text 'Colorado Immunization Information System'. Below the header, the main content area is white and features the title 'Main Application'. Underneath, there is a 'Login' section with two input fields: 'Username' and 'Password'. A blue 'Login' button is positioned to the right of the password field. Below the input fields, there is a link for 'Forgot Password?' and another link for 'Trouble Logging in?'. At the bottom of the page, contact information is provided: 'CIIS User Support: (888) 611-9918 Fax: (303) 758-3640', 'CIIS General Mailbox: CDPHE.CIIS@state.co.us', and a link to the [CIIS General User Login Request Form](#). The footer includes the Colorado Department of Public Health & Environment logo, which consists of a green triangle with 'CO' and a blue triangle with 'CDPHE'.

CO.TRAIN (www.co.train.org) is used to access the CIIS online training courses, which are required for new CIIS users who work in a healthcare or school setting. New CIIS users will need to [create an account on CO.TRAIN](#) in order to register for the CIIS online training courses and print course certificates of completion. **Please Note:** This account is **NOT** your CIIS user account.

Colorado TRAIN

Welcome to TRAIN, the premier learning resource for professionals who serve the citizens of Colorado. A free service of the [Public Health Foundation](#), www.train.org is part of the newly expanded TrainingFinder Real-time Affiliate Integrated Network (TRAIN).

Through this site, you can:

- Quickly find and register for many courses listed on Train.org and participating TRAIN affiliate sites,
- Track your learning with personal online transcripts,
- Access valuable materials, course reviews, and discussions to improve your learning experience, and
- Stay informed of the latest trainings for your area or expertise.

If this is your first visit, click "Create Account" on the left menu to register for TRAIN and start learning today!
If you already have an account, please enter your Login Name and Password in the text-boxes provided on the left menu and click "Login".

CIIS Resource Center (CRC) (<https://www.ciisresources.com/emrlogin.asp>) is a self-service system that allows you to do the following:

- Enroll your organization for participation in CIIS.
- Submit new user account requests.
- Access CIIS training information and resources.
- Provide access to electronic data exchange guidelines and CIIS messaging specifications.
- Test Health Level 7 (HL7) messages generated from your EHR against CIIS specifications for formatting accuracy (HL7 validation).
- Receive assistance with Stage 1 Meaningful Use attestation for the immunization registry reporting objective.
- Register your intent for Stage 2 Meaningful Use.
- Submit online support tickets to the CIIS Help Desk.
